### Entrepreneurship at different stages

Friday 27 March 2015 - 2:00pm - 4:00pm

Room 010 Building 7 - Social Activities Centre - New Campus

*What does a graduate of the University of Cyprus (UCY) do at a multinational firm? What did another graduate of the UCY do at one of the best entrepreneurship programs in Europe? How did a young Cypriot manage to get 1,2 million euros in seed funding in London? What did a Cypriot do at a Boston USA based startup and why did he return to Cyprus?*

The first event organized by the **newly founded Centre for Entrepreneurship (C4E) of the University of Cyprus** comes to shed some light into these questions. We will have the opportunity to hear firsthand how did two of our own graduates manage to create their startups in UK and how another young Cypriot manage to create a very successful startup in busy London. Last but not least, we will learn from a more mature entrepreneur what is like to work at a startup in Boston and what is he is doing back home in Cyprus.

**Book your place here:** <https://www.eventbrite.com/e/entrepreneurship-at-different-stages-tickets-16218954329>
